Introduction

Welcome to the fifteen volume of Clinical Schizophrenia and Related Psychoses journal.. Expectation this year points an achievement throughout the entire existence of the diary since it accompanies some exceptionally fascinating and useful original copies inside extent of diary. To get best preferred position out of this turn of events, we support more kinds of articles plus, standard examination, survey or analysis articles we are additionally intending to distribute video article, which is bit fascinating. This will help us in scoring high in execution gauges and climbing in diary positioning records.

We attempt to deliver astounding compositions, as a favored substance article consistently gains an expected effect on the per users, so we might want to distribute your eminent articles and we are positive that your commitment will unmistakable assistance in arising new ideas to the per users and arising specialists. In spite of the fact that our diary has a long history and it keeps on improving with time, we can't actually disregard the significance attributed to the positioning activities. All distributed articles of this diary are remembered for the ordering and abstracting inclusion of Medline, PubMed, Scopus and Embase. All distributed articles are for all time documented and accessible in the site.. We attempt our level best to deliver the most energizing exploration concerning the subjects of Schizophrenia and mental issues and to give a fast pivot time with respect to checking on and distributing, and to disperse the articles openly for examination, instructing and reference purposes. We will additionally examine novel thoughts and systems to expand handling, delivering pace

of the articles and gives us extension to remember more articles for a year. The time has come to have a look at the diary metrics as well and proceed to indefatigable to assist the diary in scaling the positioning stepping stool with extraordinary number of useful and inside degree original copies. We should discover better original copies that investigate and examine novel considerations and advancement in this field. Examination headings, unique articles that can make profound interest in the readership of the diary and substance that the scientists would prefer not to miss.

It requires a ton of efforts of the Editor to do this appraisal, the part of Editor accompanies an incredible obligation than power. The choices may leave a portion of the creators miserable, yet this is unavoidable to take care of business the diary into what we are yearning for. I thank the whole article board and commentators for all their help.

It requires a ton of efforts of the Editor to do this evaluation, the job of Editor accompanies an extraordinary obligation than power. The choices may leave a portion of the creators despondent, however this is inescapable to get down to business the diary into what we are trying for. I thank the whole article board and commentators for all their help.

My warm gathering to the amateur of the Editorial Board of the diary. Together we would pursue making this diary a really powerful distribution. Remarks, recommendations and unique issue proposition are constantly grasped.
