Description

Welcome to the fourteen volume of Clinical Schizophrenia and Related Psychoses journal, a hybrid access journal. Hope this year marks a milestone in the history of the journal because it comes with some very interesting and informative manuscripts within scope of journal. To get best advantage out of this development, we encourage more types of articles besides, regular research, review or commentary articles we are also planning to publish video article, which is bit interesting. This will help us in scoring high in performance measures and moving up in journal ranking lists.

We endeavour to release excellent manuscripts, as a preferred content article always gains a potential impact on the readers, so we would like to publish your renowned articles and we are positive that your contribution will definite help in emerging new concepts to the readers and emerging researchers. Though our journal has a long history and it continues to improve with time, we cannot really ignore the importance ascribed to the ranking exercises. All published articles of this journal are included in the indexing and abstracting coverage of Medline, Pubmed, Scopus and Embase. All published articles are permanently archived and available in the website.. We try our level best to release the most exciting research with respect to the subjects of Schizophrenia and mental disorders and to

provide a rapid turn-around time regarding reviewing and publishing, and to disseminate the articles freely for research, teaching and reference purposes. We will further discuss new ideas and strategies to increase processing, releasing rate of the articles and gives us scope to include more articles in a year. It is time to have a glance at the journal metrics too and continue to assiduous to help the journal in climbing up the ranking ladder with great number of informative and within scope manuscripts. We should find better manuscripts that explore and analyse novel thoughts and innovation in this field. Research directions, original articles that can create deep interest in the readership of the journal and content that the researchers do not want to miss.

It requires a lot of exertions of the Editor to do this assessment, the role of Editor comes with a great responsibility than power. The decisions may leave some of the authors unhappy, but this is inevitable to shape up the journal into what we are aspiring for. I thank the entire editorial board and reviewers for all their support.

My warm reception to the newbie of the Editorial Board of the journal. Together we would work towards making this journal a truly influential publication. Comments, suggestions and special issue proposals are always embraced.
